FULLSTACK DEVELOPMENT STUDENT

As a tech enthusiast, I've built game servers, managed gaming communities, and excelled in bug fixing and finding exploits.

Familiar with HTML and CSS, and also customized website templates.

Currently enrolled in a 6-month full-stack development course, eager to apply my skills and creativity.

PROFESSIONAL EXPERIENCE

FTK

May 2022 - July 2023

IT Services

In my role at FTK Company, I managed and maintained computers, printers, and peripherals, ensuring optimal functionality. Key responsibilities included hardware and software support, network management, and user assistance.

Online game management

July 2023 - Present

Project Management Assistant

Managed game servers across various platforms, including MMO games, open-world environments, and other multiplayer games.

Successfully addressed and resolved bugs and performance issues.

Reacted in real-time to urgent issues, guaranteeing maximum availability and stability of the game.

Received feedback from the gaming community and adjusted the game accordingly
